Village of North Bennington 2023 Water Quality Report Addendum

This addendum is being provided to correct an error in the original 2023 Water Quality Report that was distributed to users and posted on the Village of North Bennington website. There were two new requirements of the Lead and Copper Rule Revision that were overlooked. We apologize for the inaccuracies. The missing content is listed below.

- As required by the Lead and Copper Rule Revision, we are preparing a service line inventory. The purpose of the inventory is to determine if any of our service lines contain lead, galvanized pipe requiring removal, or unknown materials. This service line inventory will be completed by October of 2024. Please contact us if you would like access to this inventory.
- Complete lead tap sampling data (i.e. each individual sample result) are available for review. Please contact us if you would like to receive this data.

The direct link to the report on the Village of North Bennington website is:

<http://villagenorthbennington.org/s/2023-CCR.pdf>

Please contact the North Bennington Water Dept. at 802-442-3883 or nbwd2009@gmail.com if you would like to request a copy of the report.

Thank you!

North Bennington Water Dept.
