Village of North Bennington 2022 Water Quality Report Addendum

This addendum is being provided to correct an error in the original 2022 Water Quality Report that was distributed to users and posted on the Village of North Bennington website. The reported results for the 90th percentile and range for lead were incorrect. We apologize for the inaccuracies. The correct results are shown below and have been corrected in the updated report.

Copper	Collection Year	90th Percentile	Range	Unit	AL*	Sites Over AL	Typical Source
Lead	2021	1.3	0 - 1.4	ppb	15	0	Corrosion of household plumbing systems; Erosion of natural deposits
Copper	2021	0.15	0 - 0.17	ppm	1.3	0	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives

The direct link to the report on the Village of North Bennington website is:
