

Annual Hydrant Flushing

The North Bennington Water Department will begin its annual hydrant flushing Monday June 19, 2023. Flushing will take place between the hours of 8:00 am and 3:00 pm, Monday through Friday and last for approximately two weeks. Customers may experience temporary periods of low water pressure during flushing. If you experience instances of discolored water please run the cold water until it clears. Discolored water is not a health threat. Hydrant flushing is a maintenance practice that is required by the State. We apologize for any inconvenience.

If you have questions please call, North Bennington Water Dept. office at 802-442-3883.
